Footnotes:

1. Multiple cell configurations of the single cell models above are also available but not listed individually. Multi-cell configurations are end-wall to end-wall arrangements of the single cell designs which do not impact the air flow rate or capacity of the individual cells, and are included in the certification. See example model number below.
2. Performance certified with water as the process fluid.
3. Certification includes tower construction materials indicated by suffixes -B, -S, -E and -F which are added to basic model numbers above.
 - B is for HDG casing, basin, mainframe and hardware
 - S is for stainless steel casing, basin, mainframe and hardware
 - E is for FRP casing, FRP basin and HDG mainframe and hardware
 - F is for FRP casing, FRP basin and stainless steel mainframe and hardware
4. Certification includes unit with optional gear drive in place of standard belt drive.
5. Certification includes use of side, end or bottom water inlet configuration.
6. Certification includes use of optional handrail and/or ladder cage.

Certified Model Number Example: KSNX-125CS -2

KSNX-C – Line Designation

125 – Model Size Code

S – Low Noise Fan

-2 – Two cell arrangement of the primary certified model (capacity equals 2 times rated capacity)
